

## NO SURRENDER

Port Arthur Burning is Swept by shot and Shell

BUT RUSSIANS WILL HOLD OUT

Lines Being Drawn Tight Around Port Arthur. Japs aim at Driving Russians From Liao Yang

### JAPS DEMAND PORT ARTHUR'S SURRENDER.

Tokio, August 17.—The commander of the forces besieging Port Arthur reports that Major Yamoka, a member of his staff, was dispatched under a flag of truce to the outposts of the Russians where he delivered to a Russian staff officer the message of the emperor of Japan granting the removal of non-combatants. He also demanded the surrender of Port Arthur. The answer is expected today.

### WHERE ARE THE RUSSIAN CRUISERS?

London, August 17.—A despatch to a news agency from St. Petersburg says that up to yesterday neither of the armored cruisers Gromoboi or Rossia of the Vladivostok squadron, which were engaged on Sunday with a Japanese squadron commanded by Admiral Kamimura, had succeeded in reaching Vladivostok, and that their whereabouts were unknown.

### JAPANESE MAKING PROGRESS.

Mukden, Aug. 17.—The Japanese have occupied Tsia Hill on the Russian extreme left. A small force of Japanese infantry occupied Dapindu pass on August 17th. The Russian outposts retired.

### JAPANESE LOSSES ARE TRIFLING.

Tokio, August 17.—According to an official report, the Japanese losses in the battle between Vice-Admiral Kamimura's squadron and the Vladivostok cruisers, in which the Russian cruiser Burik was sunk, were 10 officers and 100 men killed or wounded.

### PORT ARTHUR THREATENED BY FIRE.

London, August 17.—A despatch to the Central News from Tokio says that a big oil warehouse at Port Arthur is blazing furiously and that the position of the besieged is such that the Japanese are urging them to surrender.

### WONT STAND RUSSIA'S BIG BLUFF.

Shanghai, August 16.—The Chinese Laoti has informed the Russian consul general at Shanghai that the Russian torpedo boats in that port must depart or disarm. The consul replied that both the boats were going to leave as soon as they were repaired. The Japanese consul commanded the immediate departure of the boats without waiting for repairs.

### RUSSIANS RETURNED.

Chefoo, August 17.—The Russians, it is expected, did not encounter the Japanese fleet when they left Port Arthur. Nevertheless they returned to the harbor at Port Arthur.

### DIANA AT VLADIVOSTOK.

London, August 17.—A despatch to a news agency from St. Petersburg says that an officer sends a message to his family that the cruiser Diana has arrived at Vladivostok.

### NOVIK HEADING FOR VLADIVOSTOK.

London, August 17.—The correspondent to the Daily Mail says the cruiser Novik of the Port Arthur squadron has been sighted off the Straits of Van Diemen steaming for Vladivostok.

### PORT ARTHUR WILL NOT SURRENDER.

Chefoo, Aug. 18.—Refugees arriving here from Port Arthur report that the garrison refuses to surrender as long as there is a round of ammunition left and guns and men to train them. General Stoessel refuses to send out any non-combatants, though many of these are escaping daily.

### PORT ARTHUR IS AN INFERNO.

Chefoo, Aug. 18.—The condition in the beleaguered fortress is terrible. The garrison stands to arms day and night and there is a continual hail of shot and shells sweeping over the doomed city. The Japanese heavy batteries on the hill to the east search every foot of the harbor and the surrounding shore. Japanese shells have ignited coal lighters in the docks and the conflagration is terrible. No attempt is made to check the flames as the garrison is too exhausted to fight them and non-combatants are prostrated with terror. The city is an inferno, but the garrison is resolute and will not hear of surrender.

### JAPS PRESS THE ATTACK ON PORT ARTHUR.

The Japanese line has been drawn still closer around the beleaguered Port Arthur. The right wing of the Japanese line has penetrated to the vicinity of Pigeon Bay, while the centre has moved forward from Peking Ching, which is south of Shu Chi Yen and two miles north of the town. Passengers on board the steamer Decima, which anchored off the shore of Port Arthur last night, witnessed the bombardment from Pigeon Bay. The Japanese shells were visible during their whole force. They circled comet-like to the town and their explosions were marked by great flashes of fire which shot up into the sky. The bombardment from this and other points began at midnight and lasted until midnight. The Russians did not reply to the Japanese fire.

### DRIVING THE RUSSIANS FROM LIAO YANG.

Liao Yang, August 18.—The general Japanese flanking movement developing to the east and parallel with the railway, involves all the troops from Dalian pass to Diodin Shan on the Taite river, 35 miles southwest of Mukden. It is evident that these troops have combined to force the Russians out of Liao Yang without fighting, and thus secure advantageous winter quarters.

### JAPS WONT PUT UP WITH A LONG DELAY.

London, August 18.—The Shanghai correspondent of the Times says: "The Chinese have again changed front. The Taoti today received instructions from the Chinese foreign office that the cruiser Askold and the destroyer Groszoi are to be allowed reasonable time for repairs, and at the conclusion of this period, they must either depart or dismantle. The Japanese consul yesterday intimated that Japan will take strong measures should there be any further delay."

### WILL DO CHINA'S DUTY FOR HER.

Shanghai, August 18.—The correspondent of the Morning Post says it is reported that the Japanese squadron is coming here because of the failure of the Chinese to comply with the Japanese demand that the Russian cruiser Askold and the torpedo boat destroyer Groszoi, dismantle or quit port.

If there was any process, or appliances, superior to those now in use in the production of Silver Cow Milk and St. Charles Cream, they would at once be adopted.

**To Open Broker's Office**

Herald:

John Bryner, of Minneapolis, is a visitor in the city. He is stopping at the Alberta. Mr. Bryner is representing the Edwards-Wood company, large grain dealers and brokers. Mr. Bryner's visit to this part of Canada is for the purpose of opening up a number of branch brokerage offices in this part of Canada. Arrangements were made yesterday by which the Coe Commission company's office here is to be taken over by the Edwards-Wood company. Offices are also to be opened by the company at Edmonton, Red Deer, Medicine Hat, Indian Head and other points.

**Weather Forecast**

Washington, Aug. 15th.—My last bulletin gave forecasts of a disturbance to cross the continent Aug. 11 to 15, warm wave 16th to 14th, cool wave 15 to 17. The next disturbance will reach the Pacific coast about 17, cross west of Rockies by close of 18, great central valleys 19 to 21, eastern states 22. Warm wave will cross west of Rockies about 17, great central valleys 19, eastern states 21. Cool wave will cross west of Rockies about 20, great central valleys 22, eastern states 24th. This disturbance will bring a great change in temperature and a long hot period will succeed a long cool period. Storms will assume a milder form than those that clustered around Aug. 11, but will continue to be more intense, more severe than the average storms of August. Temperatures will continue to fluctuate up and down, but more up than down and from about Aug. 16 to Sept. 1 a very great rise in temperature will be experienced.

The hurricane expected to organize in the Caribbean sea will probably continue its operations for several days on the Atlantic coast but I do not undertake to give the path. If it continues to August 19, I will expect it to greatly increase in force about that time.

The fifth storm wave of August will reach the Pacific coast about 23, cross west of the Rockies by close of 24, great central valleys 25 to 27, eastern states 28. Warm wave will cross west of Rockies about 26, great central valleys 28, eastern states 30.

This disturbance will bring a period of furious storms on the continent, on the North Pacific, on the North Atlantic, and possibly, though not probable, on the Gulf of Mexico. If I have timed the continental storm waves about correctly readers will know not only when to expect these severe storms but approximately where.

The most severe storms will cluster around Aug. 26 and I expect the storm waves at that time to be in the great central valleys.

**Lacombe Fair**

Globe:

The eleventh annual exhibition of the Lacombe Agricultural Society, held on Thursday and Friday last proved beyond a doubt, to have been the most successful fair in the history of the society.

This year a purely agricultural fair was held; that is, a fair void of any side attractions such as races, sport, etc., and as an agricultural educational feature, the fair was of a high order, viewed from the points of number and quality of the exhibits.

The attendance was not as large as that of last year but considering that the farmers are in the midst of haying, the absence of horse races and the fact that a number purpose attending the circus and did not feel that they could afford to leave their work for two days during this busy season, we believe the attendance was considerably above the most sanguine expectations of the officials of the society.

The cattle were an exceptionally fine lot as were the heavy and general purpose horses. And such a showing cannot help but uphold and strengthen the reputation of Lacombe as a stock centre.

While the men of Lacombe district may not be the best groomed men in Alberta, they can undoubtedly claim to be the best fed men, judging by the display and keen competition in bread, buns, butter, cakes and other items of the provision class. And that the ladies do not spend all their time catering to the wants of the inner man, is evinced by the immense amount of both plain and highly artistic up-to-date needle work on exhibition.

The display of plants and flowers is proof positive that the biggest side of Alberta is the sunny side.

The painting and art-work display demands special mention, as it was decidedly the subject of most favorable comment by the public. The poultry and grain exhibits were decidedly more numerous and better than last year, while the pig and sheep classes differed little from previous years.

We do not think the vegetable and root display to have been as good as previous years, but this is, no doubt, owing to the fair dates being unfavorable for a good display in these classes.

**Province:**

His Lordship Mr. Justice Martin today fixed bail in the sum of \$25,000 for Dr. Robert Telford, who is charged with manslaughter in respect to the death of Miss Bowtell.

Of this amount, \$5000 is personal recognizance by Dr. Telford. Then there may be four sureties of \$5000 each or the amount may be further subdivided up to eight at \$2,500 each, all to be to the satisfaction of Registrar Beck.

This afternoon friends of Dr. Telford are making arrangements to secure the required sureties, and the probability is that he will be released by this evening or to-morrow. Rev. A. E. Green, ex-Ald. McQueen, Mr. D. Donaldson and Dr. Ernest Hall, partner of the accused, will on all likelihood be amongst those who will put themselves officially responsible for the appearance of Dr. Telford at the Assizes.

The application of bail was made this morning in Chambers by Mr. Joseph Martin, K. C., while Mr. Stuart Livingston appeared on the other side. No particular objection was urged to the granting of bail, but both lawyers gave accounts of the case to the court, impressing the vital points upon the judge in order that a proper estimate of what bail should be required could be arrived at.

After listening to the accounts given and reading for himself the stenographer's report of the evidence of McHarg, the judge stated that he agreed entirely with the magistrate in sending the case up for trial.

"There is something to investigate here," said the bench, "and I do not see how the magistrate could have done other than what he did. The evidence of McHarg, combined with the other testimony, make it a case for investigation."

His Lordship laid particular stress on the evidence of McHarg, when he told of Dr. Telford's giving him the catheter. If this were true, said the court, it would go to show that the doctor had been willing to have the operation performed, and therefore might be considered an accessory. This of course was a matter for the jury to consider, but it naturally arose in the consideration of an application such as the present one.

In discussing the matter, Dr. Livingston mentioned that he had been instructed by the Attorney-General to ask for a commitment on the charge of manslaughter, and not for alleged murder. This, however, could not possibly affect the indictment which the Attorney-General might make before the Grand Jury at the Assizes. It was quite possible, and in every way legal, that the indictment should be one of murder. It was purely a matter of consideration of the evidence.

## Perils Of Fishing

New York, August 12th.—Of all the varied forms that fishery enterprise assumes in many seas, there is, says a writer in the New York Sun, probably none more daring than the annual migration of 20,000 Newfoundlanders to and from Labrador, spending the summer in trawling for cod along that dreary, desolate, sub-Arctic seaboard. This migration northward in the spring and southward again in the autumn, embraces not only the fishermen themselves, but their wives and children with their household goods and domestic animals. These are conveyed to the lonely strand in the little fishing smacks, and established in miserable wooden or turf huts in the harbors that indent the rockribbed coastline—if ice and fog and tempest allow the perilous passage to be made in safety.

The outside world has small conception of the dangers that attend every stage of this industry, or of the privations and misery endured by these hardy fisher folk in their six months' struggle to wrest a subsistence from the ocean. Disaster and death follow in the wake of the little argosies and the annual death roll often assumes appalling proportions.

Whole crews are engulfed by the mighty billows and the entire seaboard is strewn with the wreck of craft piled there by the spring breezes or autumn gales. Bergs and floes do their part to augment the wrecks and in the blinding fogs collisions and strandings add to the fatalities.

When spring opens the fisher boats are fitted out for the venture and their living freights are embarked. The earliest arrivals pick the choicest fishing grounds, so there is general striving to make the run as speedily as possible. The vessels have to thread their way through the ice-strewn sea, stretching far beyond the horizon. Dispersing and reassembling with every change of wind, these restless masses mean certain destruction to any craft unfortunate enough to be nipped between them.

Only a week ago five men and two women reached the upper shore, the only survivors of twenty-two souls of the schooner Albatross which had been sunk by the ice, leaving them to float about on the floes for four days and nights, without food, fire or shelter. Last year the Puritan was crushed under similar circumstances with fifty-seven persons aboard. The survivors were adrift for more than 72 hours in an equally helpless condition. Some of the women had infants less than a year old.

The icebergs cause the worst tragedies, because they are rarely sighted in time to escape and the impact of a frail craft against one of them shatters her like a bundle of splintered boards, leaving but a few half-drowned wretches to float around on planks and hencoops. Now and then a crew or part of it, will find lodgment on the berg itself, and remain there, chilled and despairing, until some other vessel succors them. There is no mature Labrador fisherman who cannot recount thrilling personal experiences with bergs and floes, or display scars from frostbite acquired in protracted exposure after meeting the dire misfortune of shipwreck amid the snow-floated seas.

When inshore winds pack the coast of Newfoundland with frozen gales the fishing vessels have to harbor where they may. Two seasons back 122 craft were held prisoners in Grise-Haven for nearly three weeks. Their complements ran from 30 to 80 persons each. Herded like cattle in little smacks, without privacy, sanitation or even ordinary room to move about, they endured indescribable dis-

comforts. Diphtheria broke out among them, and, crowded as they were, its ravages were frightful. Last year smallpox obtained a footing in the fleet and caused a panic the effects of which were felt from one end of Labrador to the other.

But fog is the chief abhorrence of the fishermen. Enveloped in these murky pall's, the shrewdest judgment, the keenest seamanship, is often at fault. The coast is sentinelled by islands the whole way, and when the vessel's pump upon these there is terrible havoc in human life.

The schooner Cesar struck some but-lying islands three years ago, about midnight, and the loss of 74 lives were only averted by the coolness of the skipper, who held all to the wreck until men swam ashore with lines. Four lives were lost and the survivors were alone on the desolate rock for nearly a week, without fire or shelter, living on wild birds' eggs and brackish water, until a passing smackman sighted their signal of distress—a woman's petticoat—and transported them to the mainland. They made their way home, deprived of their summer's fishing and all their possessions.

Records of heroism and self-sacrifice are interwoven with the more prosaic details of the fishing. A lad of 12, when his father had taken him on his back to swim ashore with him after their vessel had foundered off the land, begged his father to abandon him and save his own life for the sake of the large family depending upon him. But the father got him safely in, and the lad is now a successful Labrador skipper.

One shipmaster holds a medal for saving 41 lives in a Labrador storm. He was lowered down the face of a cliff and snatched from a wreck in the surf below all but eight of the crew of 49. He thought his work was done when 39 were got to safety, but when he was hoisted to the hilltop he was informed that there were two more on board, and descended again to rescue these.

Every one of these fishermen is as ready to give his life for the nearest stranger in peril on the coast, and is as unconscious of what death means.

## Immediate Settlement Wanted

Constantinople, Friday, Aug. 12.—United States Minister Leishman today saw Tewfik Pasha, Turkish minister of foreign affairs, and renewed the urgent representations of the American government for an immediate settlement of the demands regarding the rights of American citizens in Turkey.

It is understood important developments are expected within a few hours, either the Porte giving way, or Minister Leishman demanding his passports.

After the interview with the minister Tewfik Pasha proceeded immediately to the palace.

Yesterday's conference between Minister Leishman and Izzet Pasha, Secretary of the palace, and Nedjio Melhame, assistant minister of public works, lasted eight hours during which Izzet Pasha exchanged communications with the palace.

In the course of the discussion the Turkish delegates attempted to impugn the character of some of the schools and contested the American claim to be granted privileges given to similar French institutions.

Mr. Leishman, however, firmly refused to consider for a moment any suggestion of discrimination and insisted on a full acceptance of the American list of about 300 schools, hospitals, charitable institutions and missionary dwellings filed with the Porte eighteen months ago. The American minister pointed out that the Porte had ample time to verify the list, but that he had done nothing, and Mr. Leishman positively refused to listen to any suggestion regarding treatment differing from that accorded to the schools, etc., under the protection of other powers. The delegates finally left in order to report to the Sultan, promising a favorable reply.

## How Arms go to Japan

New York, Aug. 15th.—America at this moment has upon the high seas, consigned to Japan \$7,000,000 in goods, which in part or in whole are liable to seizure as contraband of war. Consigned to Russian merchants of this country have at sea goods of the nature and of about half the value of those en route for Japan.

The Russian Government has been informed it is held that one hundred packages of sewing machines shipped by the steamship Empress of India from Vancouver on July 25 are in fact gifts from a Connecticut arms factory. A shipment of this size, however, is regarded as a sample lot; but it has taken a tortuous and what would appear to be an expensive route. Being brought to New Haven it was sent in a schooner to Hartford, whence it was rebilled and sent by rail to Buf-

falo. It was then reshipped to Duluth by Great Lakes, rebilled there to Fargo, rebilled again to Dominion City, Manitoba, where it reached the Canadian Pacific railroad. It finally was delivered in a warehouse in Vancouver. There it was rebilled and the packages remarked and put on board ship for its actual destination.

The Herald also says large quantities of chemicals are going to Japan. All the visible supply of camphor in this country has been taken up for shipment to the East, and much of it is on its way. This is classed as a drug, but it is the base of smokeless powder. Its movement is only temporary and applies to what is available in the open market, for the chief source of camphor supply is the Island of Formosa, a Japanese possession.

While many standard remedies are made there, the raw material is for the most part imported. So it is the preparations under American labels that are going to the East, as, for example, a certain form of chloride, of which there is one shipment of 1,000 gallons. It is worth about \$1 an ounce and is used in place of a solution. This is the largest purchase ever made and more than enough to supply the whole hospital practice of this country for a long time, so that its destination and purpose can scarcely be questioned. Similar purchases of a preparation for inflammation in place of nitrate of silver and ethyl chloride, an antiseptic spray, have been made.

## Business Education

Excellent training in stenography, type-writing, book-keeping and kindred subjects can be obtained in Alberta college, Edmonton. The college has a full staff of certified teachers in the departments of

Art, Business, Music and Elocution and Physical Culture

The academic department is specially designed for a class of general students. Mr. Percy Hook, late of the Toronto College of Music; Miss B. Crawford, of Woodstock College, and the Misses Webster and Bellamy are the teachers in music, elocution, and physical culture. The new building is situated on First street, south of Jasper. Board and room can be obtained in the College. Business and Music departments open September 1, Arts and Academic October 1st, For fees and further particulars apply to the principal.

## SPORTS

## BASE BALL MATCH

The baseball match, Edmonton vs. Strathcona on the Edmonton Exhibition grounds to-morrow evening has every promise of being a first class exhibition of the game. Both teams are on their mettle. Strathcona banks heavily on their aggregation and expect to win out, notwithstanding the fact that Edmonton has administered thorough defeats the two last times the teams have come together. A large turnout is requested.

## LACROSSE TO-NIGHT

If the Edmonton lacrosse team do not win their match with Strathcona, this evening it will not be on account of insufficient rooting by the spectators. The match takes place in Strathcona and it is a foregone conclusion that the supporters of that town's team will be present in full force. A special train leaves Edmonton station at 6.30 o'clock sharp this evening and will return after the match. All loyal supporters of the Edmonton twelve are urgently requested to be present. At the last match the Edmonton boys defeated their natural enemy on Edmonton grounds, and this evening they will endeavor to repeat the trick on the enemy's own territory.

Both teams have been practicing hard, both teams will line up in full playing strength, and both teams can be relied upon to put up a pretty article of the national game. It will be a good match, both teams are on their mettle and will do their prettiest.

It is to be hoped that good feeling will prevail on the field and that there will not be a repetition of those free for all scraps that characterized the last match. If any of either team cannot play lacrosse without losing their tempers, they had better quit the game.

The boys who go forth to win victory for Edmonton are:

Goal: Harper; Point: Pearson; Cover Point: Banford; 1st Defence: McIne; 2nd Defence: Maveley; 3rd Defence: Morris; Centre: Thom; 3rd Home: Maloney; 2nd Home: Watkins; 1st Home: Nott; Outside: Brent; Inside: Thomson.

Referee, R. Dewar.

The local lacrosse team management distributed dangers this afternoon announcing that "two hundred Edmonton people are wanted to take the 6.30 train for Strathcona to-night to take in the lacrosse match, Edmonton vs. Strathcona."

The special lacrosse train to Strathcona to-night will stop opposite the lacrosse grounds.

Herald: The Calgary baseball team will not make a trip to British Columbia at least not at present. This was the decision arrived at last night at the meeting of the club. It was decided that instead of making a trip to Fernie and the other places that wanted them, a tournament should be held in Calgary on Labor Day or about that time. A statement was presented, showing that the recent trip had been a success as far as the finances were concerned.

## Who Will Pay for Fire Guards

Regina, Assa, Aug. 16.—The railway commission was in session here yesterday. A large portion of the afternoon was devoted to hearing of the railway arguments. The principal evidence was given by Mr. Bulley, commissioner of public works, relative to the construction and maintenance of the fire guards by the Northwest government during the past two years in conjunction with the C.P.R. This agreement was terminated by the government this year, largely because the act creating the railway commission defined the obligation of the railways in this particular. The Northwest government take the position that it is the duty of the company to construct and maintain these guards at their own expense.

This view is combated by the railway officials, upon the claim that as the work is for the benefit and protection of the public, the public should bear a portion of the cost.

Mr. Blair foresaw a difficulty before the commission in issuing an order compelling the company to construct fireguards on private property. William Whyte and Premier Haultain addressed the commission on the subject.

## Sultan Losing his Authority

Tangier, August 15.—The authority of the sultan of Morocco is fast ebbing, while that of Menebi, a former leader of the liberal element in the

kingdom, is increasing daily. The sultan's appeal to the tribes has not been heeded, the whole country being opposed to the sultan's idea of French occupation for the protection of foreigners. Stirring times are expected in the near future.

It is persistently rumored that the position of British Consul McLean at Fez has become an awkward one, and that he is likely to abandon his post.

The steamer Hercules from Larache, Morocco, was permitted to enter the port of Pratigue last night, although it was past midnight when she arrived. Abdessalock, the commander of the Moorish troops at Oudju, was aboard the vessel and was taken ashore. His presence and that of troops is necessary in that locality owing to the recent successes of the pretender.

The consular agent at Alsazar has been landed and will probably make a report of the situation in the interior to the British legation at Tangier.

The Frenchmen commissioned to construct the road from Larache to Fez have arrived with mules and baggage and with a force of troops to protect them from the natives.

## Jewish Massacres

New York, Aug. 15.—The Tribune this morning says: "The Jewish Morning Journal will print today the following from its Warsaw (Russia) correspondent: 'On Sunday, July 31, in the city of Ostrowitz, (government of Radom), a Jew was quarreling with a Gentile. The latter who was an epileptic, fell during the encounter as a result of one of his epileptic fits. The Christian bystanders, however, raised the cry that the Jew murdered their comrade.'

"In a short time all the Christian inhabitants of the town turned out, and proceeded to avenge the alleged crime. The riot that ensued resolved itself into an awful massacre of Jews, of whom 20 were killed and a great number were wounded. The massacre lasted all day.

"Another massacre occurred on Saturday, July 30, in the town of Poissevel (government of Sedlitz) in the following manner. A clergyman induced a small Hebrew girl to embrace the Christian faith. The parents of the girl went to the church where their daughter was confined, accompanied by some of their Jewish friends and demanded her release on the ground that the court decided that the girl was under age and could not act independently in such matters, and that consequently her parents had the right to interfere with her action. The clergyman, seeing that the Jews were determined to use force if necessary, called the mayor to his aid. The two incited the populace against the Jews and a fierce riot ensued. More than 100 Jews were severely wounded. The number of dead is unknown, because the police withhold the facts."

## Trouble in C. P. R. Circles

Winnipeg, August 16h.—Trouble is anticipated on the C.P.R. system during the coming fall. There are persistent rumors of dissatisfaction among certain employees and it is learned that those men are trying to get other branches of the company's service to join them.

During the last two months there have been several consultations between brotherhoods of railway carmen, the machinists and the company with regard to certain demands from the employees. Deputations have been in consultation with Wm. Whyte, second vice president, and Wm. Croise, assistant, every day for weeks at a time, but the arrangements arrived at have not been entirely satisfactory to the employees.

The last meeting of this kind was held about two weeks ago, when both machinists and carmen from all points west of Fort William had representatives in the city.

Mr. Drey, of Woodstock, N. B., chief organizer of the maintenance of way men, has also been in the city for several weeks, and has been in consultation with different leaders of the organizations. This branch of the company's service had an understanding with the company but a short time ago, when several changes in the constitution were adopted and approved by the company. They now have no personal cause of complaint, but it is expected, that they will support other organizations in the demand for a satisfactory settlement.

The trouble has not come to a head yet, though the report has it that employees have delivered an ultimatum in which is embodied their terms of settlement. If this is not agreed to within a certain time limit they will walk out. It is their expectation that in view of the rush of fall work, which will develop within the next few weeks the company will not be in a position to refuse them.

The chief demand is one for increase of wages.

### RESIGNS

Justice Drake Sees Fifteen Years Service and is Entitled to Superannuation

Bulletin Special Dispatch.  
Ottawa, August 18th.—The resignation of Justice Drake of the British Columbia Supreme Court has been received at Ottawa.  
He has completed his fifteen years' service and is entitled to superannuation.

## HAYES WILL VISIT

### EDMONTON

Grand Trunk Pacific Officials now Touring the West will Spend Two Days at Edmonton

Bulletin Special Dispatch.  
Winnipeg, August 17th.—A train of five cars left Montreal on Monday evening last bearing the directors and officers of the Grand Trunk Pacific who will make a tour of the west for the purpose of looking over the ground of the new transcontinental railway, and viewing the proposed terminus on the Great Lakes and the Pacific coast. The tour will last about 33 days. The Toronto directors, Hon. Geo. A. Cox and E. R. Wood, joined the party in Toronto.

No advice in the city have been received by the local G. T. Pacific representatives, but the above despatch is regarded as correct. The party will travel over the C.P.R. to Port Arthur from North Bay, and over the Canadian Northern to the city. A stop of two days will be made at Port Arthur and Port William, two days will be devoted to the city and two days to Edmonton. From the Northern Alberta town the party will proceed to Vancouver to meet Hon. R. Prefontaine, and from there proceed to Port Simpson and other North Pacific coast points to select a terminal port for the new Transcontinental line.

### PIGEONLAKE

Settlers, principally Americans, are rapidly settling up this district. The timber is not too heavy to allow of easy clearing and already the country shows sure signs of early prosperity.

A general store for groceries, hardware and dry-goods has been recently opened up by R. Sheppard, off the northeast corner of the lake, and it is anticipated that a post office, a school and a church will shortly follow suit, and quite a little town be formed about 25 miles northwest of Wetaskiwin. The district is well worth investigation by newcomers seeking a home within reasonable distance of the railroad.

### AT THE RIFLE RANGES

There was a good turn out at the rifle range on the flats across the river yesterday afternoon and a first-class practice was held. A delegation was present from the Strathcona Rifle Association and put in a good practice. It is understood that arrangements are under way whereby the Strathcona Association will use the Edmonton range. Both Associations will probably go in together for the annual fall matches. This would doubtless have a tendency to arouse still greater interest in rifle shooting although the Edmonton team are doing good work which is due in a large measure to the great enthusiasm displayed by a number of the Association.

### STORM AT THE FORT

Yesterday evening a storm passed over Edmonton and gaining greater strength as it proceeded spent itself at Fort Saskatchewan. A heavy wind accompanied the storm. Just at the Fort quite a shower of hail fell and although the storm looked severe in other directions scarcely any hail fell, and none to do any damage. What little hail there was, was confined to the village. The reports of a heavy fall in the surrounding districts are incorrect.

## WILL RUSH GRADING

### OPERATIONS

On the Canadian Northern: Transcontinental Line to Edmonton. Reach Vermilion this Fall

Bulletin Special Dispatch.  
Winnipeg, Aug. 18.—J. D. McArthur, head contractor on the construction of the Canadian Northern railway grade, leaves Winnipeg this week in company with Mr. Alex. Calder for Saskatoon. They will drive over the grade and will see what additional steps can be taken to push the work with all possible speed. It is Mr. McArthur's intention to get the grade as far west this fall as there is any possibility of getting it. Within three weeks over 900 teams will be put to work between the Vermilion and Battleford. The contractors are pushing the work with all dispatch and will undoubtedly finish the grading to beyond the Vermilion this fall. Fort Pitt is now being made the base of operations for supplies. This point is 200 miles east of Edmonton.

## NEGROES BURNED

### ALIVE

Uncontrollable Mob Puts Two Negroes to a Frightful Death. Burned at the Stake

Bulletin Special Dispatch.  
Statesboro, Ga., August 17th.—With clothing saturated with kerosene, writhing and twisting in very agony, screaming to heaven for mercy that the mob would not show, Paul Reid and Will Calcutt, negroes, two of the principals in the murder and burning of Henry Hodges, his wife and three children, six miles from Statesboro, three weeks ago, were burned at the stake yesterday. The two men were condemned to die September 9th, but the mob overpowered the soldiers on guard and dragged them out.

### A BUSY PLACE

One of the busiest places in Edmonton this week is on the river bank below the bridge. The Canadian Northern spur to the river has been constructed and car after car of bridge and pile timber is being unloaded into large piles on the river bank where they can easily be rolled into the water. About forty men are employed at the work which is proceeding with great dispatch. The timber will be floated down the river to Battleford, where it will be used in the construction of the Battleford bridge. About twenty cars of this timber is arriving at Edmonton daily and will continue to arrive at this rate until the whole amount of the two and a half million feet arrive.

### ORDINATION SERVICES

Special services were held in the Presbyterian church last night when the Rev. Thos. A. Rodger was ordained a minister of the Presbyterian church of Canada. Mr. Rodger has not taken the regular ministerial course and his ordination was granted by the general assembly by special dispensation on the receipt of a petition from the Edmonton presbytery. Quite a number of people were present at the service.

Rev. Mr. Flemming, of Strathcona, presided. Rev. Dr. McDonald preached a short sermon before the ordination service. He spoke from the text, "Other foundation can no man lay, than that which is laid, even Jesus Christ." The ordination service was then proceeded with. Rev. Mr. Flemming put the questions usually put to candidates for the ministry. After prayer, and the laying on of hands by the presbytery, Mr. Rodger was set aside to the work of the ministry. Rev. Mr. Douglas then delivered the charge to the newly ordained minister. It is customary at such ordinations for an address to be made to the congregation, but

as Mr. Rodger has no settled charge, this part of the service was dispensed with.

Rev. Mr. Flemming spoke a few words regarding the pleasure it gave him to preside at Mr. Rodger's ordination. The choir delivered appropriate selections throughout the service. The meeting was closed with prayer by Rev. Mr. Flemming.

Rev. Mr. Rodger will continue his evangelistic work throughout Alberta.

### Will Want our Grain

Ottawa, August 15.—Canadian Commercial Agent Sautum, of Norway and Sweden, says that as the result of the drought that has been common over Europe this season there will be a heavy demand from all the continental countries for grains and food stuffs. Canadians ought to find a ready market and good prices therefore for all they have to sell.

Canadian Commercial Agent Jardine, Cape Town, reports that business in South Africa has not in any way improved, and it is not likely that they will get to the bottom of the existing depression before another year. Canadian Commercial Agent Ross, in Adelaide, Australia, says that record orders have been sent from the commonwealth this year to the Canadian farm implement factories. The total revenue of the commonwealth's last fiscal year up to July 1st, was \$11,627,144.

**Business Outlook****Commercial:**

While crop prospects continue very favorable, wheat continues to indulge in acrobatic performances, resulting in an advance for the week in Manitoba, cash wheat of 1-2c, and in American options of 6c per bushel. It looks as if farmers would receive record prices for their grain. On this account there is generally a healthier and more optimistic undertone in business circles, not only in the west, but throughout the Dominion.

Local wholesale trade is rather on the quiet side. In many lines this is the dull season. Still the volume of business continues steady. In produce, fruits, etc., there is a noticeable let-up now that the exhibition is over and the task of feeding thousands of visitors is being gradually removed.

An exceedingly satisfactory development in the United States, which must indirectly be beneficial to Canada, is the placing of a number of contracts by prominent consumers of iron and steel. The condition of this industry is a reliable criterion of the country's welfare especially of one which has its own resources so developed as the States. The iron and steel industry has been languishing for some time, but the placing of these contracts will prove a tonic as well as indicating that the railways have more confidence in the situation.

A steady growth in the Dominion's foreign trade is shown by the statement just issued for the fiscal year closing July 30th last. The increase is in round numbers \$6,000,000, and this, too, despite the fact that there was a heavy decrease in exports of wheat and butter, as was to be expected.

The aggregate of imports and exports is estimated to amount to \$473,000,000, as compared with \$467,000,000 for the previous year, or an increase in round numbers of \$6,000,000. On the basis of imports entered for consumption, and domestic exports the increase would be \$7,682,988. There was a falling off in domestic exports for the year just closed, amounting to \$15,987,235. In the exports of foreign goods from Canada there was an increase of \$4,000,000. The decrease of domestic exports is very largely accounted for by the fact that there was a large decrease in the export of wheat. In 1904 we exported only 6,779,028 bushels, as compared with 32,985,745 bushels in 1903. There was also a large falling off in the exports of butter, which decreased by 19,000,000 pounds. On the other hand the export of cheese shows a gain of 3,000,000 pounds. Other features of the report are a decrease in exports of the mine and in miscellaneous articles, and increases in exports of the fisheries, forest, animals and produce, agricultural products and manufactures.

Winnipeg bank clearings for the week ending Aug. 11 total \$5,580,987, an increase of \$1,563,718 over last year, when the total was \$4,016,969. For the corresponding week in 1902 the total was \$2,226,223. The percentage gain this year over last is 28 per

cent. The gain over 1902 is the great showing of 69 per cent. Toronto clearings for the week show a gain of \$651,000 as compared with last year, the amount for the past week being \$15,226,000. Montreal clearings were \$20,098,761, a decrease of \$861,266.

**Cardston****Alberta Star.**

This year of grace marks a new era for the industries of the country around and about and in Cardston. The railroad has reached us at last and the regular passenger service is an established fact. It will be a time saver, a money saver, an educator and a civilizer. If the people will awake to the fact and grasp the situation with its manifold possibilities, the rosiest dreams of progress and prosperity may ere long be indelibly painted upon the panorama of our wonderful growth and development.

In a recent conversation with one of our business men, he remarked that the one thing Cardston lacked to insure her advancement to the plane to which she rightfully and naturally belongs, is builders. We need more push, more activity, more enterprise. Other towns with scarce men for the natural resources are going ahead by leaps and bounds while we lag along, bringing up the rear as best we can. Cardston has the best facilities for substantial growth of any of her sister towns in Southern Alberta. We have a rich, prosperous, big country to draw from—the best country in the district.

If the people of Cardston—the business men—will take hold and support the local board of trade, we can accomplish much good for the community. The board of trade find it a difficult matter to arouse sufficient interest in public affairs to get representative men to attend the meetings. We have said that the advent of the railway marks a new era. It does, but that new era may very easily be blurred or allowed to die out if interest is not taken in general matters with more dispatch and vim than has heretofore been noted.

There is a great future in store for Cardston. We must keep abreast of the times and develop every available resource. Join hand in hand and be united in all things calculated to advance our mutual interest. By proper application of the forces of nature (mining and agriculture) will be combined with trade and commerce, making of our town a railroad centre, and this with the establishment of the High School will place us foremost in educational acquisitions. The future is entirely in our hands to mould and fashion it for good or ill. Don't "knock" your town; speak well of it; encourage people to come and join with you.

We welcome most heartily the presence of the railway and hope that with the bounteous harvest this fall, the loads will be of sufficient sweetness to coax the managers to spring one of the rails a little nearer the edge of the ties.

**A Fingerpost of Progress****Commercial:**

A 250 per cent. increase in acreage and over 400 per cent. increase in the spring wheat crop is not a bad record for five years. Such is the achievement of the Territories as shown by the latest bulletin issued by the Commissioner of Agriculture, Regina. The acreage in spring wheat this season is placed at 1,049,799 acres, and the expected yield at 19,827,500 bushels. The figures for 1900 are 412,884 acres, with a yield of 4,028,294 bushels. As compared with last year, the increase in acreage is 212,565 acres, and the increase in yield 3,798,351 bushels. Production of fall wheat has also increased, the acreage being 5,483 acres, with an expected yield of 125,200 bushels, as compared with 3,440 acres with a

yield of 82,430 bushels last year, showing an increase of 2,943 acres and 42,780 bushels for the year. This makes the total increase in wheat acreage 214,608 acres, with an additional yield, according to the bulletin's estimate, of 3,926,751 bushels.

Partly, no doubt, owing to the late spring, the area in barley and oats is remarkably increased. In oats the acreage is 656,229 acres, as compared with 440,652 acres last year, and 175,349 acres five years ago. In the past year the acreage of barley has jumped from 69,687 to 112,090 acres, and the yield from 1,741,309 to 2,927,500 bushels. In the cultivation of flax there is a falling off, as was expected, the acreage being 21,032 acres, as compared with 32,481 acres last year; and the estimated yield 220,950 bushels, as compared with 292,853 bushels in 1903.

**Boiler Explosion**

St. Catherine's, August 12th.—A disastrous boiler explosion occurred here last night, wrecking a large section of the Kitchener Paper Company's mill was badly wrecked. The entire business section of the city was severely shaken, breaking several windows.

That there were no lives lost is most remarkable. Both night and day shifts had been in the rag boiler room just a few moments before the explosion occurred, for it was in this room that the employees changed their clothes.

At the moment at which the crash came those whose duty it was to go into that room, were engaged in another portion of the mill.

**Russia Acquiesces**

London, Aug. 12th. In the House of Commons to-day, during the discussion of the India budget, Mr. Brodric, Indian Secretary, replying to criticisms of the Tibet expedition, said he was unable to say when it would return. It was the intention to vacate Lhasa immediately after terms had been arranged. The Government did not propose a permanent occupation, but it must insist on the authorities at Lhasa giving assurances that Great Britain's name would be treated with proper respect. The secretary added that Russia has been fully advised and agreed with Great Britain's plans.

In the course of the debate Mr. Brodric and other speakers paid high tribute to the administrative ability of Lord Curzon of Kedleston, the Viceroy of India, and expressed pleasure at the fact that he was returning to India.

**Destroying Weeds**

Surface cultivation affords the best means of destroying weeds. These are, of course, various ways of eradicating troublesome weeds, depending largely upon the sort of crops grown and the nature of the weeds themselves. One method is to prevent the seed from maturing, by growing a good crop or an early maturing crop such as clover. With a late maturing crop, which allows the weed seeds to ripen, it is advisable to adopt surface cultivation after harvest, so as to encourage those seeds to germinate the same season, when the young plants can be destroyed. Under such circumstances it is a too common practice to bury the seeds by deep plowing, leaving them in a condition to come to the surface and germinate in some future crop, in which very likely it will be impossible to destroy them.

**French Colonists****Tribune:**

A party of 54 French travelling together from Brittany, France, to colonize in Alberta arrived in the city. The children in their blue serge suits and brown bare legs; the women in their quaint costume of the north shore of France, and the thick-net, swarthy-faced men, have attracted considerable attention in the neighborhood of the C.P.R., while they have been awaiting their final railway journey. This party is among the best group of French that have come to settle here this year. It is in charge of Rev. Father Gendreau, of Brittany, and includes a physician and a number of well-to-do farmers. Red Deer has been selected as their future home, and they will leave en party for that point shortly.

A touch of romance is connected with the colonists, two of their number having been united in matrimony by their attendant Father at the Church of the Immaculate Conception yesterday. They travelled from France together to be joined in the partnership in the new land where they have cast their life fortunes.

**Harvest Excursions**

Winnipeg, Aug. 15.—The first official announcements in regard to the annual harvest excursions from eastern Canada to Manitoba and the Northwest, have reached the passenger department of the Canadian Pacific railway here. So far, six excursions have been provided for, extending over the period from August 20 to Sept. 1. The fare is \$12 from any point east of Sault Ste. Marie, O.T., with children carried at half fare. Those who were fearful some time ago that the C.P.R. were going to discourage the emigration of ladies to the west, by depriving them of the privileges of these low rates will have their apprehensions allayed by the fact that the excursions are available to females as well as males.

The arrangements for the excursions provide for the sale of one-way

second class tickets to Winnipeg, to which are attached a coupon entitling the holder to free continuous passage to whatever place he may engage to go when he reaches the city. These coupons must be presented to the ticket agent at Winnipeg not later than Sept. 10. The ticket has also a farm laborers' certificate attached which on arrival at destination must be handed to the railway agent nearest. Compliance with the conditions named on it will entitle the holder to a return passage to the place where he came from for \$18 before Nov. 30 of this year.

**The Canadian Northwest Homestead Regulations**

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 16, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres more or less. ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

**HOMESTEAD DUTIES.**—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following upon cultivation of the land in each year during the term of three years:

(1) At least six months' residence years.  
(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence upon the land may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with cultivate 30 acres of his homestead, buildings on their accommodation, and have besides 30 acres substantiated.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

**JAMES A. SMART,**

Deputy Minister of the Interior. N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

## LOCAL

—A. H. Liversidge will start a newspaper in Leduc.

—A meeting of the Fire Brigade is called for this evening.

—The Baptist church Sunday school are picnicking on Groat's flat this afternoon.

—A. E. Hopkins has received his discharge from the N.W.M.P., and will enter business with H. M. Williams.

—R. J. Manson has received the contract for the erection of the new McKay avenue public school.

—A formal invitation will probably be extended to the Railway Commission to visit Edmonton on their return from the coast.

—The funeral of the late John Thurston takes place tomorrow afternoon at three o'clock to the Edmonton cemetery.

—The second baseball teams of Fort Saskatchewan and Edmonton are announced to play on the Hudson Bay grounds, Edmonton, this evening commencing at seven o'clock.

—Alberta: W. C. Armstrong, acting on behalf of the Territorial Rifle Association, has not yet given up the idea of having a short visit from Perry, the King's prize winner. He is in communication with Perry and he is expecting a reply very soon.

—A meeting of the Old Timers is being called for tomorrow afternoon at 2 o'clock sharp in the Fire Hall for the purpose of attending the funeral of the late John Thurston. The funeral is at three o'clock.

—Tickets for the complimentary banquet to be tendered Frank Oliver M.P., to-morrow evening may be obtained from the committee as follows: Dr. Roy, C. W. Cross, P. E. Leppard, Jas. McGeorge, R. McIntosh, R. Manson, G. B. McLeod, W. A. Deyl, W. Gariepy and A. E. Candeman.

—Gus Doze is in Edmonton today from Beaver Hills. The crops in that vicinity have come on with great rapidity during the last two or three weeks. A considerable amount of barley and some wheat is being cut. Oats are ripening fast and will be a good crop.

—Alberta Star: The surveyors running a survey from Cardston to Pincher Creek returned last week. It is believed by many that ere long a line will be laid connecting that point with the first named. This would undoubtedly place Cardston in the centre, commercially, of one of the finest agricultural and ranching districts of the great northwest.

—Rail fell in the vicinity of Cardston, southern Alberta, last week.

—The funeral of the late Mrs. Kuhnert took place yesterday afternoon from the family residence on McDougall street. A large number of friends and acquaintances turned out to pay their last respects to the deceased. The funeral services were conducted by Rev. A. M. McDonald, assisted by Rev. Haggar, both of Edmonton. The pallbearers were Fred Falkenberg, Emil Shebale, Philip Haggar and J. Neher.

—The Edmonton Stock Yards Company, Limited, has been incorporated with a capital of \$60,000 in shares of \$20 each. The officers of the company are Alex. Taylor, President; P. E. Leppard, Vice President; E. W. Davies, Secretary. The directors are, Wm. Mason, A. C. La Riviere and H. J. Dawson. The bankers are the Union Bank and the S. L. C. Co. Bawn, Dawson, Kennedy & Hyndman. The purposes of the company are to acquire property and to open sale yards.

—It is stated that a young man and woman resident in Edmonton, while driving back from the circus in Strathcona Tuesday evening, drove over the bank, horse and all, falling about twenty feet. The occupants of the rig miraculously escaped uninjured. The horse was freed from the buggy and the young man started to hoof it for Edmonton to procure a lantern to afford him light to properly rearrange matters. The young lady pluckily stayed in charge. The lantern was procured and so dazed was the young man that he spent an hour searching for the scene of the mishap. The young couple are now none the worse for their accident and are keeping the matter hushed up.

—Chas. Savage, of Calgary, intends opening a brokerage office in the Hub Cigar store within a few days. The office will be opened under the direction of Mr. Bryner, who is manager of the Edwards-Wood company, of Minneapolis grain dealers and brokers. This firm is opening a number of offices throughout the west and the Edmonton office will belong to their system. The local office will have a fifteen minute service with the eastern commercial centres and will furnish quotations of the Chicago and Minneapolis grain markets and the New York stock markets. Mr. Bryner is expected to arrive in Edmonton within a day or two.

## PERSONAL

W. A. Johnstone arrived in Edmonton last night from Regina.

A. York returned last night from a business trip to Calgary.

J. F. McKinnon arrived in Edmonton last evening from Port Elgin, Ontario.

T. A. Rodger is in the city today. He will preach in the Presbyterian church next Sunday, morning and evening.

Jno. York returned to Edmonton last night from a holiday trip down the line. He spent several days in Calgary and Lacombe.

K. A. Ashworth of the Bank of Montreal has been transferred to the Calgary branch and left Edmonton this morning.

Mr. and Mrs. J. H. Gariepy left this morning for a visit to Toronto, Montreal and other eastern points. While away Mr. Gariepy will attend the C.M.B.A. convention.

E. D. Weber, a merchant of Warton, Ontario, is in the city today. He is taking a trip through the west and is greatly pleased with it. Edmonton has been a very pleasant surprise to him.

Free Press: Father Lacombe is now in Europe, travelling with his grace the Archbishop of St. Boniface. In a letter received within the past week, Mgr. Langevin, writing from Paris, says he cannot start for home before September 10, and may have to wait till September 20, but not later.

Rudolph Bach, of Montreal, German journalist, Canadian correspondent for the New York Staats Zeitung, New York; the Illinois Staats Zeitung, Chicago, and the Frankfurt Gazette, arrived in Edmonton last night. Mr. Bach is on a visiting trip to the different German colonies in Western Canada, this being his sixth trip to the prairie settlements. Mr. Bach has recently returned from a very enjoyable trip to the coast.

## CARD OF THANKS

"Mr. E. C. Kuhnert wishes, through the Bulletin, to express his thanks for the many expressions and acts of kindness done him during his recent and bereavement."

THE MANCHESTER HOUSE

## A MADE TO MEASURE SUIT

is the correct thing to wear. Satisfactory in every particular—style, comfort and price. We are at your service for coat, vest or trousers, or suit complete. The best cloth may be ruined by poor cutting. OUR CUTTERS ARE EXPERTS. Received today our fall and winter samples, the best, largest and most up-to-date selection of fabrics, patterns and colors ever shown in the west. The reputation of the Crown Tailoring Co. is so firmly established that I do not deem it necessary to say more than our guarantee of absolute satisfaction covers the whole situation. Let me have your esteemed order early for fall or winter. Come and see our samples.

The Crown Tailoring Co.

Canada's Largest Tailors.

At the PERFECT CLOTHING CO.

1st door west of Postoffice.
